For those arriving later or not attending a dinner in the Ministry of Health, badges will be available at the entrance to the e-Health Center.

Be kindly encouraged to wear badges in a visible place throughout the meeting.

Venue of the meeting

21 September – official opening of the meeting - a dinner in the Ministry of Health

Pac Palace, the seat of the Ministry of Health of the Republic of Poland, is a late Neoclassical palace featuring four wings and two courtyards, one of which has the rare form of a circular courtyard.

The palace was built between 1681 and 1687 in the Baroque style and remained the property of the Radziwiłł family for most of its history until the beginning of the 19th century. In 1823, the palace was purchased by General Ludwik Michał Pac, for whom it was extensively rebuilt. Since then, it has been known as Pac Palace.

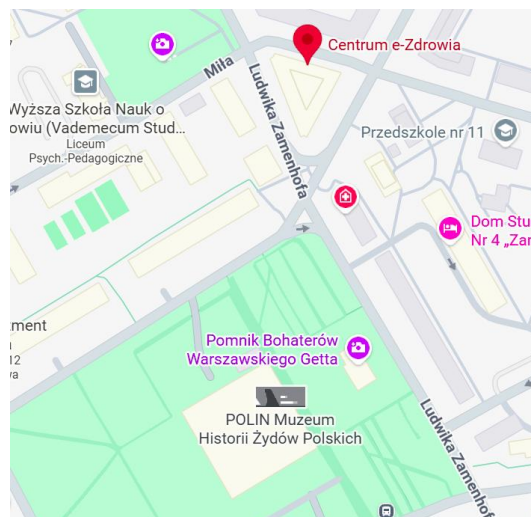

The palace was partially destroyed during the Second World War and was reconstructed between 1948 and 1951.

From 1918 to 1939, the building housed the Warsaw Regional Court (District Court). Since 1951, it has served as the headquarters of the Ministry of Health of the Republic of Poland.
