Warsaw, 18 March 2020

Employees conducting scientific research (qualified for the N number)
Heads of Units at
The Medical University of Warsaw

Dear Sirs/Madams,

I kindly inform you that we have launched at MUW a new electronic system named **WiseSci** for summarizing the scientific activity of the employees, units and disciplines.

In the first module that was made available, you will find information on the publication accomplishments, slots' volume and on the status of slot filling. At further stages of implementation, in the system there will appear data regarding projects and patents.

Information on the accomplishments is presented in two bookmarks:

- 1) The bookmark '**Moje**' displays the information on the person logged in the system and, for heads, also the summary for the unit.
- 2) The bookmark '**Dostępne**' displays the information on other authors which can be accessed by the user – e.g. employees of the unit of which the user is head.

Accomplishments' summaries:

- They show the current status, e.g. for publications only works approved on the employee's WUM.PUBLIAKCJE account are included;
- Are made according to the principles of scientific activity evaluation, as stipulated in the Ordinance of the Ministry of Science and Higher Education (MNISZW) of 22 February 2019 on qualitative evaluation of scientific activity, e.g. publication receives points if the authors has submitted in the WUM.PUBLIKACJE system the declaration authorizing MUW to include it during the evaluation to be conducted in 2021;
- May change as a result of updating of the database, implementation of optimizations aiming at obtaining the highest score or modification of criteria, e.g. currently, verification of the types of works included in the evaluation is being conducted, which may cause exclusion from the accomplishments the part of works which so far have not been scored.

The WiseSci system is available via the SSL-VPN website under the name **Ewaluacja Dorobku Naukowego 2017- 2020 (Evaluation of Scientific Accomplishments for 2017- 2020)**.

Information on the system shall be provided by the Department of Science. After the current restrictions are eliminated, the Department of Science will conduct an extensive campaign presenting the operation of the system. At the moment, please send e-mails to: aen@wum.edu.pl.

Kind regards,

/-/ Prof. dr hab. Jadwiga Turło
